Vaccine (COVID) transmissible?: Connections and healing possibilities, clarification in a spiritual point of view.

This is Archangel Chamuel speaking.

As you know, there is a material substance *and* an energetic substance. A vaccine that is injected is a material substance and an energetic substance *at the same time*.

On the material level, the vaccine is *not* transferable. But on the energetic level, the field of the vaccinated comes into contact with the field of the unvaccinated. And there a reaction happens, there the unvaccinated person can pick up symptoms of the vaccinated person. He can get tired, he can get limp, but he is *not* a carrier of the vaccine.

He did not take over this virus on the physical level. But the effects on the energetic level, that is possible.

That is why people have symptoms even though they do not have COVID! These symptoms are mostly fast temporary, but they can be very unpleasant, because this energetic field of the vaccinated causes great irritations on an energetic field of an unvaccinated. And these irritations make the unvaccinated person dizzy, nauseous, tired.

These are actually most of the symptoms that a "non-vaccinated" person can perceive **in the environment** of a vaccinated person.

Often it is people whose light body is very developed, who are very sensitive, who then also perceive such things. For people who go about their daily lives, who do not care much about spiritual themes, who are more materially anchored, who have not yet developed their light body so much, these effects are not a theme, because they are less sensitive and therefore perceive it less. With people, as I said before, who have developed their light body, who are in a spiritual development, with these people it was possible that they felt all these symptoms that I listed earlier. And as soon as they moved away from the energy field of the inoculated again, after a few hours it subsided, and they themselves came back into their own power.

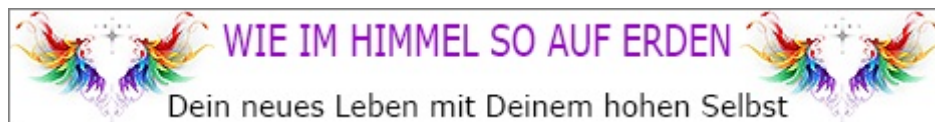

Again, I would like to briefly summarize that the vaccine *does not* pass from the material substance to an unvaccinated person. But the energetic field, which is changed by this vaccination, can be felt and felt by the unvaccinated person and can irritate him and cause symptoms in the time when he is with vaccinated people.
